Episode 005: *Portable Electronics*

You and Your Ancestors on the Road: View tips below on using portable electronics. Then view a couple of examples of basic research logs. Finally, if are a jazz lover you may enjoy my iPod playlist for courthouse research. It is called "Too Smooth" and contains low and mid tempo jazz music.

9 TIPS FOR USING PORTABLE ELECTRONICS

- 1 *Purchase* electronics within you budget, accounting for accessories.
 - 2 *Condense* electronics gear. Purchase combo products. The goal is to have less baggage not more.
 - 3 *Test* drive portable electronics before you hit the road.
 - 4 *Practice* taking photos of documents at home. Do not wait until you find an important document.
 - 5 *Ask* if you can use your camera in the repository. Call ahead and ask if digital cameras are permitted and in what capacity.
 - 6 *Prepare* not to use your camera. At times logic, pleading, nor tears will work. I know.
 - 7 *Check and recheck* photos of documents as you go along. Blurry photos can be devastating.
 - 8 *Pack* extra camera and laptop batteries. *Bring* chargers to facilities just incase.
 - 9 *Backup* digital photos on another device, like a laptop, iPod, flash drive, CD, DVD, etc.
